SEMICONDUCTING DEVICE WITH STACKED DICE

Docket No.: Filed:

Examiner:

884.C31US1

March 31, 2004

Deloris S. Bryant

Serial No.: 10/815,966

Due Date: March 8, 2006 Group Art Unit: 2813

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

We are transmitting herewith the following attached items (as indicated with an "X"):

X Return postcard.

X Response to Restriction Requirement (2 pgs.).

If not provided for in a separate paper filed herewith, Please consider this a PETITION FOR EXTENSION OF TIME for sufficient number of months to enter these papers and please charge any additional fees or credit overpayment to Deposit Account No. 19-0743.

SEMICONDUCTING DEVICE WITH STACKED DICE Title:

**Intel Corporation** Customer Number: 21186 Assignee:

## RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

In response to the Restriction Requirement mailed February 8, 2006, Applicants hereby elect, with traverse, Group I (claims 1-11 and 22-26). If the restriction is continued, Applicants will cancel remaining claims 12-21 (with prejudice), and will reserve the right to reintroduce them in one or more divisional applications at a later date.

The Restriction Requirement is traversed on the basis that Restriction Requirements are optional in all cases. MPEP 803. If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it arguably may include claims to distinct or independent inventions. MPEP 803.

All of the pending claims relate to semiconducting devices, electronic systems and methods that include (i) a substrate; (ii) a first die attached to the substrate; (iii) a spacer covering the active circuitry on the upper surface of the first die where the spacer extends from a first side of the first die to an opposing second side of the first die and the spacer extends near a third side of the first die and an opposing fourth side of the first die such that the active circuitry is exposed near the third and fourth sides of the first die; and (iv) a second die stacked onto the spacer and the first die. The Examiner will be looking for a substrate, first and second dies and a spacer as recited in each of claims 1-26. Thus, Applicant respectfully submits that these claims can all be easily searched and examined together.

As part of maintaining the restriction, the Examiner states at page 2 of the Office Action that "the semiconductor device can be made without the active circuitry attached to the first die and the stacked die can be secured to each other without the use of a spacer but instead may be secured using an adhesive or conductive epoxy." Applicant can not see where the statement adequately indicates that claims 1-11 and 22-26 are distinct inventions from claims 12-21. Clarification is respectfully requested.

RESPONSE TO RESTRICTION REQUIREMENT

Serial Number: 10/815,966 Filing Date: March 31, 2004

Title: SEMICONDUCTING DEVICE WITH STACKED DICE

Assignee: Intel Corporation

In addition, Applicant also fails to see the relevance and accuracy of the statements because each of claims 1-26 recites a substrate, first and second dies and a spacer. Applicant further notes that the Examiner will be searching for each of these items (i) without regard to how the substrate, first and second dies and spacer are stacked; and (ii) with the first die including active circuitry on an upper surface of the first die.

The Examiner is invited to telephone Applicants' attorney Andrew Peret at 262-646-7009, or the below-signed attorney at 612-349-9592, to facilitate prosecution of this application. If necessary, please charge any additional fees or credit overpayment to Deposit Account No. 19-0743.

Respectfully submitted,

SCOTT R. SAHAIDA ET AL.

By their Representatives, SCHWEGMAN, LUNDBERG, WOESSNER & KLUTH, P.A. Attorneys for Intel Corporation P.O. Box 2938 Minneapolis, Minnesota 55402
